

PureOne Plasma Air Purifier

Poor air quality is one of the prime public health concerns in our part of the world . In fact ,it is a well known fact that the indoor air quality is even worse than the outdoor air. With an average person spending more than 90% of the time indoor ,taking steps to improve the air quality in your homes can lead to significant health benefits. PureOne Air Purifier is a compact and efficient way of removing pollutants from indoor air and making your home healthier. With no consumable parts that wearout or need replacement ,PureOne Air Purifier is an essential gadget to give your family an added health protection. PureOne Air Purifier is suitable for cleaning Your Home and Office .

In Today's polluted environment there cannot be a better gift than a gift of Fresh ,Pure and healthy Air.

How PureOne Plasma Air Purifier works

Pureone Air Purifier produces high concentration of negative ions .These negative ions attach to smoke, dust and pollen particles bringing them down to the ground to discharge leaving behind fresh and clean air. This is one reason why we find air near Waterfalls and Forests to be so fresh (Air near waterfalls and Forests contain thousands of time more negative ions compared to our indoor air). It also produces a refreshing ion breeze silently consuming negligible power .With no moving parts or noisy fan ,they are silent in use making them ideal for the bedroom ,office or Study -places where even slight sound can be very distracting .No Need for filter-Standard air cleaners only trap pollutants from the air that is drawn through their filters. This air movement itself keeps much of the ultra fine particles in suspension .This also leads to the filter constantly,"filling up" and becoming less effective .On the other hand ,ions emitted from Pureone Air Purifier spread out and actively attack pollutants .They can effectively remove particles smaller than a hepa filter can trap .

Note : Actual Image of PureOne Air Purifier may vary depending upon the Model.

Pure One Plasma Air Purifier Features

- The plasma generated by PureOne air purifier clears the air from dust, smoke, pollen, pet dander, mould spores, and other potential allergens pollutants
- It also Kills neutralizes air borne bacterial load in your homes.
- It is also believed that negatively charged plasma protects lungs from irritation and inflammation ,thus leading to less instances of respiratory illness like, cold ,flu, asthma etc.
- It is also believed to act as a stress reliever. Studies have shown that high level of negative Ions can be effective at treating Season Effective Disorder (SAD).
- All models of Pureone Air Purifiers consume less than 2 Watts of electricity. This also means cleaner and healthier air with incredibly low carbon foot print and low running cost. In Today's polluted environment there cannot be a better gift than a gift of Fresh ,Pure and healthy Air.
- It also inhibits the growth of air borne and bacteria in your homes.
- Silent (fan-less) Operation (10db)
- A.B.S / Poly-carbonate break resistant body.
- Totally Electronic ensures light weight & trouble free operation.
- For optimum results always keep it plugged in 24x7.

Technical Specifications

Item	Portable Air Purifier
Product Generic Name	Plasma Air Purifier
Model	PureOne
Voltage	220-230V AC
Power	<2 Watts
Negative Ions Output	3000000/CC
Working Volume(Max)	34 cubic meter room (~1200 sq ft)
Dimensions (Height X Diameter)	8.7x 9.7 cms
Weight	< 500 Grams
Brand	PureOne
Material	A.B.S Plastic/Polycarbonate
Color	Black/White
Type	Compact
Display Type	L.E.D Indicator
Removes	Dust, smoke ,pollen, odour and other pollutants. Kills/Neutralizes Bacteria, Viruses & and other harmful pathogens
Other Benefits	Negative Ions help to relieve stress and make one feel lighter, energized & and concentrate better. Increases Immunity to fight against diseases.
Frequency	50HZ
Portable	Yes
Silent Model	Yes
Ionizer	Yes
Suitable For	Office ,Home ,Kitchen
Technology Used	Negative Ion Plasma
M.R.P. (Inclusive of all taxes)	Rs. 2000/-
Manufactured & Marketed by	Pure One Labs Pvt Ltd MIF Block C, Export Promotion Industrial Park Bari Brahmana –Jammu (INDIA) 181133
